INTEGRATED MANAGEMENT SYSTEM POLICY

Quality, environment, health and safety, customer and continuous improvement

At Bventura Precision Components Co., Ltd., we manufacture high-precision automotive components through turning and machining processes. Our Integrated Management System Policy guides every decision to ensure product conformity, environmental responsibility, safe and healthy working conditions, satisfied customers, and sustainable growth.

Commitment to customer, legal, environmental, occupational health and safety, and product requirements

01

Customer and experience

We understand customer requirements and work to provide reliable service, responsive support, and a professional experience.

02

Quality and product safety

We prevent defects, reduce variation, and ensure conformity and product safety in critical automotive components and processes.

03

Delivery and competitiveness

We meet requirements for timing, quantity, packaging, and efficiency while maintaining competitive costs and excellent service.

04

Environment and sustainability

We promote pollution prevention, efficient use of resources, decarbonization, and reduction of greenhouse gas emissions (GHG).

05

Health, Safety and Well-being

We eliminate hazards, reduce risks, and guarantee the consultation and participation of workers and their representatives to prevent injuries and ill health.

06

Continuous improvement and Strategic Leadership

We set objectives, use data, strengthen processes, and foster strategic leadership and continuous improvement throughout the company.

Approved by Management

This Integrated Management System Policy provides the framework for establishing and reviewing quality, environmental, and health and safety objectives; it is communicated, applied throughout the organization, and available to relevant interested parties.
